

Digital Conference System Extension Controller

CE2500E

Features

- * With standard digital conferencing system to expand speech units.
- * Can be extended to 128 speech units after be connected to the system.
- * Support 32 extension controllers' series-connection.
- * With 120-220V AC input voltage (3500V) test before putting into the market to ensure the compliance with safety standards.
- * Metal shell for the master controller: circuit and shell are strengthened to connect with the ground wire to ensure 8000V antistatic ability.
- * The master controller can be installed in a 19-inch standard rack, easy to place and maintain.
- * Built-in international universal power supply.

Specifications

Model	CE2500E
Power	AC 120 or 2220V; 50-60Hz
Static Power Consumption	10W
Maximum Power	350W
Output Power	≤110W/24V each circuit
Audio Output	Level 2Vp-p Impedance:100 Ω Unbalanced
Frequency Response	20-20KHz
S/N	>90dB
Harmonic Distortion	<0.1%
Overload Band Distortion	<1%
Crosstalk Attenuation (1kHz)	>50dB
Interface	8 core air plug x 5/City electric three core AC socket
Dimensions	430(L) x 275(W) x 90(H)mm
Weight	6.0kg
Color	gray
