

Line Array Column Speaker

OCM-100N

DESCRIPTION:

This Line Array Speakers come with such sound enhancing benefits as clear sound, excellent directionality of focus on the listening area, and transmission of clear, even sound over a distance, thanks to a low degree of sound attenuation. These speakers are well-suited for medium-sized mainly speech applications where clear, uniformly dispersed sound that is audible at a distance is essential, such as conference centers, houses of worship and railway stations, or venues with highly reflective interior surfaces. The line array speakers work to provide high quality sound even when an equalizer is not used. The speaker units come in a slim, energy-efficient and cost-effective design, with a body that is narrower than earlier versions, so they are well-suited to a wide range of venue indoor & outdoor.

Waterproof and 100V input with tapping versional is Optional.

FEATURE:

- 3" Line Array Speaker System
- Indoor professional installation loudspeakers
- Enhanced directional focus and even sound coverage
- Ideal for conference room, worship area and railway stations
- Power output 100W, 8ohms
- 4 units of 3" special ferrite driver unit and paper cone
- Waterproof removable speakon input connector

Line Array Column Speaker

SPECIFICATIONS:

Model	OCM-100N
Enclosure	Bass-reflex type
Rated Power Output	100W, 8ohms
Line Input	8ohms
Sensitivity(1W/1m)	98dB, max 123db
Frequency Response	150Hz~14kHz , -6dB ; 80Hz~20kHz , -10dB
Directivity Angle	Horizontal: >120°, Vertical: >20°
Speaker Component	4"× 3units
Input Connector	Removable Speakon input connector
Finish	ABS+ fiber glass
Dimensions	530(W) × 100(H) × 150(D) mm
Weight	5.38kg
