DESCRIPTION:

HEINRICH all speakers support EASE, CATT, ULYSSES models for acoustic studies. This means the acoustic model can be designed to simulate the sound quality and distribution prior to installation. All HEINRICH loudspeakers have undergone thorough testing procedures to ensure that all products comply with LOW VOLTAGE DIRECTIVE (BS EN 60065, 2003) and EMC (BS EN 61000-6-Part 1/2/3/4).

The SMS6/T is a wall mount speaker built-in 70v/100v transformer. The 70v/100v transformer technique reduces line losses on longer distances and allows easy parallel connection of multiple loudspeakers. The built-in 5" +1" two-way speaker driver is designed for wide frequency response 90-18kHz, the 1.5W/ 3W & 6W three power taps are helpful for different applications, varying from room size and ambient noise surroundings. The metal grille and ABS enclosure are of white color. Easy and secure wall mount installation. It is an ideal choice for industrial and commercial applications in hotels, schools, offices, and factories where background music and paging are needed.
