### DESCRIPTION:

HEINRICH all speakers support EASE, CATT, ULYSSES models for acoustic studies. This means the acoustic model can be designed to simulate the sound quality and distribution prior to installation. All HEINRICH loudspeakers have undergone thorough testing procedures to ensure that all products comply with LOW VOLTAGE DIRECTIVE (BS EN 60065, 2003) and EMC (BS EN 61000-6-Part 1/2/3/4).

The WS-45 is a wall mount speaker built-in 70v/100v transformer. The 70v/100v transformer technique reduces line losses on longer distances and allows easy parallel connection of multiple loudspeakers. The built-in 6" +1.5" two-way speaker driver is designed for wide frequency response 100-15kHz, the RMS 45 watts power outputs are suitable for most of the applications. The metal grille, ABS enclosure and stainless mounting bracket are of black color. Easy and secure wall mount installation through the supplied mounting bracket. It is an ideal choice for industrial and commercial applications in hotels, schools, offices and factories where background music and paging are needed.
